GitHub: github.com/mraajeshwari333-byte

CAREER OBJECTIVE

Motivated second-year Electronics and Communication Engineering student with a strong interest in software development, IoT, electronics and emerging technologies. Seeking opportunities to apply programming, problem-solving, teamwork and leadership skills while continuously learning and contributing to real-world projects.

EDUCATION

B.E. Electronics and Communication Engineering — VSB College of Engineering Technical Campus | 2nd Year

Current academic performance: Odd Semester – 8.67 SGPA | Even Semester – 8.73 SGPA

TECHNICAL SKILLS

Programming: Python

Core Electronics: Digital Electronics, Electronic Circuits

IoT: IoT Fundamentals, IoT Edge Computing

Networking: Networking Basics, Cybersecurity Fundamentals

Tools & Platforms: GitHub, Firebase, Cisco Networking Academy

PROJECT

Smart Equation Assistant — Software-based project designed to assist users in solving mathematical equations and presenting results in a simple, user-friendly manner.

INTERNSHIP

Frontline Technologies, Karur — 15-Day Web Development Internship

Gained practical exposure to web development and software-based project work, with experience in building and understanding web applications in a professional learning environment.

CERTIFICATIONS & ACHIEVEMENTS

- Artificial Intelligence Foundation – Infosys Springboard
- IBM SkillsBuild Certification
- Engineering Job Simulations – Forage
- Data Plus Overview Course – TCS
- Engineering Circuit Analysis – Cursa
- Intermediate Python with AI – Unstop
- ISTE Certification
- IoT Edge Computing & IoT Analytics – Infosys Springboard
- Introduction to Cybersecurity – Cisco Networking Academy
- Data Science and Analytics – HP LIFE
- Digital Electronics Basics – Mind Lister
- IoT – SkillUp
- Adobe Hackathon – Unstop

SOFT SKILLS & LANGUAGES

Soft Skills: Teamwork, Communication, Leadership, Problem Solving, Adaptability

Languages: Tamil, English, Telugu

ADDITIONAL ACHIEVEMENT

Adobe Hackathon participation and selection/assessment experience through Unstop; active development of programming and software problem-solving skills.
